Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The PTOL 1449 has been received, reviewed and considered.

Response to Amendment

2. Applicant's arguments filed November 30, 2005 have been fully considered but they are not persuasive. The applicant is arguing claim matter that is not in the specification..
3. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., on significant advantages that MBE based epitaxial layer overgrowth (ELO) has over CVD based ELO to achieve a high ratio of ELO width to ELO thickness, etc...) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Further consideration and/or search is needed in view of the amendment of claim 1. The meaning of "...to selectively and epitaxially grow a single crystalline film on the exposed surface of the substrate that laterally overgrows the amorphous film..." is not immediately clear.
4. The argument that MBE and CVD are not equivalent is not convincing . The reference of Tokunaga, et al suggests this equivalency for selective epitaxial growth in

column 7, lines 15-25. The reference suggest MBE is a method which achieves an equivalent result and the examiner takes it at face value

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
